ABOUT US

**ONE TEAM.
ONE DREAM.**

WHAT IS FC ODISEA ACADEMY?

PROFESSIONAL ECOSYSTEM

FC Odisea Academy is an emerging global hub for sports and education, designed to unlock the full potential of ambitious student-athletes. Built on innovation, professional standards, and a holistic development model, FC Odisea is rapidly becoming a destination for young people who aspire to excel both on the field and in the classroom.

Our academy provides a complete pathway from high school to college preparation, supported by high-performance football training and, soon, additional elite programs in golf, tennis, and other sports. With a comprehensive combination of academics, sport science, character development, and life skills, we guide student-athletes through every stage of their journey – from discovery to specialization to graduation.

Based in Castellón, Spain, FC Odisea Academy offers a professional training environment, year-round residential programs, international camps, team hosting, competitions, and individualized athlete development. As we expand our academic offerings and multi-sport ecosystem, FC Odisea is committed to providing unmatched opportunities for young athletes to grow, learn, compete, and prepare for a successful future in sports, university, and life.

FROM HUMBLE BEGINNINGS TO ELITE PATHWAYS

THE CLUB & MEN'S ACADEMY

Founded in 2019 in Castellón by Javier Alcarria Moreno, FC Odissea began with a bold idea: to build a sustainable football club capable of rising through the Spanish pyramid while transforming the lives of young athletes. The journey started at Perpetuo Socorro, a modest field in Almassora. As newcomers in a demanding amateur league, few knew who we were, but we quickly set ourselves apart through our identity on the pitch and a collective belief in how the game should be played.

COMPETITIVE PROGRESSION

That first season ended with promotion and a move to Facsa Ciudad Deportiva. The path wasn't always easy; from the grueling "Alicante league" travel schedules to the tactical stabilization under José Sanahuja, every challenge was met with resilience. What began as a small group of ambitious players has grown into a full academy model fielding six competitive teams. Today, we offer a complete pathway from U19 and U23 to the first team, having trained more than 1,000 athletes from over 30 countries.

THE FIRST TEAM STANDARD

The Men's First Team stands as the pinnacle of this development pathway. It exists to provide a true professional environment and a clear destination for our youth prospects. Our progress is built on the belief in improving one percent every day—trusting that winning is the natural outcome of doing things the right way.

1

OUR BADGE

A BADGE FOR THE JOURNEY

THE SHIELD

The outer shield represents strength, endurance, and protection values that define both athletes and leaders who face adversity with courage.

Inspired by the imagery of a Gladiator's armor, the shield is a symbol of determination, discipline, strength and honor. It reflects Odisea's belief that greatness is not built in comfort, but through perseverance and the capacity to withstand challenges.

THE NAME

Odisea Captures the essence of the human and athletic journey one of the constant evolution, challenges, and discovery. It symbolizes the path of growth, where success is not merely a destination but the transformation that occurs along the way. Odisea embodies the mindset that every challenge is part of the journey, and every journey is an opportunity to evolve.

THE COLORS

The black and white design draws from the ancient philosophy of Yin and Yang, expressing the equilibrium that exists between opposing forces.

For Odisea, this balance is essential between ambition and humility, effort and recovery, logic and emotion. Only through harmony can individuals and teams perform at their highest level, make sound decisions, and sustain long-term success.

THE GEOMETRY

The clean, minimalist composition of the badge reflects clarity, precision, and discipline.

Its structure is deliberate simple at first glance, yet deeply symbolic. The geometric balance communicates order, focus, and professionalism, mirroring Odisea's philosophy of efficient, purposeful design.

KAIZEN PHILOSOPHY

At the heart of Odisea's identity lies the Japanese philosophy of kaizen (改善) continuous improvement through small, consistent progress. The idea is subtly embedded in the logo's symmetry and minimalist design: it reminds us that excellence is built one step at a time, 1% better every day.

The harmony of black and white shapes represents not perfection, but ongoing refinement, where balance and progress coexist.

ONE TEAM ONE DREAM

THE PATHWAY TO PROFESSIONAL EXCELLENCE

FC Odisea is more than a club; it is a high-performance ecosystem designed to bridge the gap between youth potential and professional reality. Our Academy stands as the cornerstone of this vision, providing the environment where elite talent is forged.

EVERY PLAYER HAS A UNIQUE CEILING

At FC Odisea, we move away from the "one size fits all" approach. Our Academy is rooted in the belief that every athlete requires a bespoke developmental roadmap. We don't just train teams; we cultivate individuals within a high-performance framework.

TAILORED PROGRESSIONS

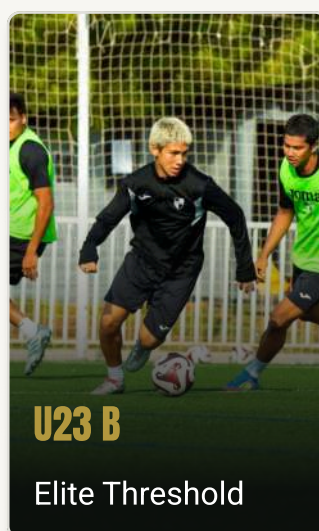

Our coaching staff designs specific technical and tactical workloads for each player based on their developmental stage.

HOLISTIC OBSERVATION

We monitor physical, technical, and psychological maturation to ensure the player is challenged at the right level.

MEN'S ACADEMY STRUCTURE

The Academy is organized into clear competitive stages, each supported by our specialized Departments (see Section 3) to ensure total player readiness and exposure to the Pathways (see Section 4).

THE THREE PILLARS OF DEVELOPMENT

Our methodology is built on three fundamental pillars. These are not isolated; they are integrated daily through the oversight of our specialized Departments (Section 3).

I TACTICAL INTELLIGENCE

Developing "thinking players." We focus on spatial awareness, game-reading, and the ability to make split-second decisions under the pressure of professional competition.

II TECHNICAL MASTERY

Total ball control. We ensure that our players possess the fundamental mechanics required to execute tactical decisions with 100% precision.

III PHYSICAL RESILIENCE

Building the elite athlete. Through sport-specific conditioning, we optimize speed, strength, and durability to meet the demands of the modern game.

POWERED BY SPECIALIZED DEPARTMENTS

The success of the Men's Academy is driven by the internal synergy of FC Odisea. While the players focus on the pitch, they are supported by our Technical, Medical, and Analytical Departments (detailed in Section 3). This ensures that every data point—from GPS tracking to nutritional intake—is utilized to push the individual closer to their professional ceiling.

BEYOND THE ACADEMY

The Academy is not the destination; it is the launchpad. Every drill, match, and tactical session is geared toward preparing the athlete for their chosen Pathway (detailed in Section 4). Whether that is a professional contract within the FC Odisea First Team, a move to an international partner club, or a transition into the elite US College system, our Academy ensures the player is prepared for the next step in their career.

THE HIGHEST ECHELON OF THE FC ODISEA SYSTEM

FC Odisea is much more than just a football club; it is a high-performance ecosystem. The Men's A team stands at the summit of our sporting structure, representing the final destination for our academy players and the flagship for our global sporting brand.

ELITE PERFORMANCE & COMPETITIVE EXCELLENCE

Our Men's A team is the culmination of the Odisea methodology. Here, the focus shifts from individual maturation to collective results and professional output. Operating in a high-pressure environment, the squad is designed to compete at the highest regional and national levels, serving as a showcase for the club's tactical sophistication and technical prowess.

COMPETITIVE STANDARDS

A relentless pursuit of excellence in every training session and matchday.

PROFESSIONAL ENVIRONMENT

Every aspect of the team is managed with the rigor and discipline expected at the professional level.

THE CORE OF THE PROJECT

The Men's A team is a strategic blend of top-tier international talent and the most successful graduates from our developmental tiers. This team is the primary focus of our technical staff and the ultimate proving ground for the Pathways (detailed in Section 4).

ELITE RECRUITMENT

Sourcing established players from around the globe to maintain a high competitive ceiling.

ACADEMY CONTINUITY

Providing a clear, merit-based entry point for standout players from U23 B and the wider Academy structure.

THE ELITE PROFESSIONAL FRAMEWORK

To maintain its status at the apex of the club, the Men's A team operates under a total performance model. This is not merely a football team; it is a professional operation supported by the full weight of our internal infrastructure.

✂️ TACTICAL SOPHISTICATION

A complex playing style that demands high tactical intelligence and physical durability.

🏆 RESULTS-ORIENTED CULTURE

While development is at our core, the Men's A team is judged by performance, consistency, and competitive success.

SUPPORTED BY SPECIALIZED DEPARTMENTS

The performance of the Men's A team is optimized through the daily involvement of our Technical, Medical, and Analytical Departments (see Section 3). From real-time GPS performance data to individualized recovery protocols and tactical video analysis, the First Team is the primary beneficiary of our high-performance resources.

THE GATEWAY TO THE PROFESSIONAL WORLD

For every player in the Men's A squad, the ultimate goal is professional advancement. This team serves as the primary engine for our Pathways (see Section 4), offering direct exposure to professional scouts, partner clubs, and the global football market. Whether the objective is a transfer to a higher tier or a long-term professional career within the Odisea network, the Men's A team provides the platform for the next step in the professional world.

THE SCIENCE OF SUCCESS

The Sports Performance Department is the technical heartbeat of Odisea Academy. We treat every player as an elite project, utilizing a data-driven approach to physical conditioning, recovery, and cognitive development. Our goal is simple: to ensure our athletes are faster, stronger, and more resilient than the competition.

THE TRIAD OF FOOTBALL EXCELLENCE

TECHNICAL PROFICIENCY

The foundation of a professional is their relationship with the ball. Our sessions emphasize high-speed technical execution, focusing on a "clean" first touch, directional control, and passing precision. We train our players to maintain total composure under pressure, ensuring they possess the technical tools required to dictate the tempo of any match.

TACTICAL INTELLIGENCE

Football is a game of constant problem-solving. Through our structured Game Model, we develop the player's "football IQ"—their ability to read spaces, anticipate opponent movements, and make elite decisions under fatigue. We transition players from reactive athletes to proactive tacticians who understand their role within the collective system.

PERFORMANCE ANALYSIS

We utilize state-of-the-art VEO technology to bridge the gap between effort and result. By filming every training session and match, our coaching staff provides detailed visual feedback. This allows players to review their positioning and decision-making in real-time, turning every game-day experience into a permanent learning opportunity.

PRECISION MEETS PERFORMANCE

OPTIMIZING THE HUMAN ENGINE

The Human Performance department is the analytical engine behind FC Odisea, maximizing player potential through a bespoke, evidence-based approach. By integrating GPS metrics, heart-rate variability, and daily wellness markers, we make informed, real-time adjustments to training loads. This data-driven infrastructure ensures that every decision made on the pitch is backed by the science off it.

THE FOUR PILLARS OF PERFORMANCE

STRENGTH & CONDITIONING

Focusing on the development of sport-specific physical attributes. We utilize targeted training cycles to optimize explosive power, speed, and cardiovascular endurance, ensuring players can maintain high-intensity output for the full duration of a match.

PHYSICAL THERAPY

A dual-focus approach on injury prevention and rehabilitation. Through comprehensive screening and "pre-habilitation" protocols, we identify risks before they manifest. When injuries occur, we provide world-class clinical care to ensure a safe and efficient return to performance.

SPORTS PSYCHOLOGY

Cultivating the professional mindset. We work with players to develop mental fortitude, focus, and emotional regulation. By building psychological resilience, we ensure our athletes can perform under the high-pressure environments of professional competition.

NUTRITION

Fueling professional excellence. We provide individualized nutritional strategies focused on metabolic efficiency, energy availability, and recovery. Nutrition is managed as a critical performance tool to accelerate muscle repair and maintain optimal body composition.

THE BRIDGE BETWEEN POTENTIAL AND REALITY

The Talent Management department provides the security and peace of mind necessary for athletes to focus entirely on their performance. We specialize in managing all factors that influence a career, bridging the gap between technical potential and professional reality. Through our integrated agency network, including OSM Scholarships, we provide a comprehensive global infrastructure that protects the athlete's interests while maximizing their market value and future opportunities.

THE FOUR PILLARS OF MANAGEMENT

PROFESSIONAL MANAGEMENT

Direct oversight of the athlete's professional trajectory. We provide expert guidance on career decisions, contract negotiations, and professional transitions, ensuring every move aligns with the player's long-term objectives.

SCOUTING & RECRUITMENT

Utilizing a proactive global scouting network to identify and promote talent. We source profiles that fit the Odisea philosophy and facilitate direct connections with professional clubs and international markets.

US COLLEGE SCHOLARSHIPS

Powered by OSM Scholarships, we manage the specialized pathway into the US collegiate system. We navigate the complexities of NCAA/NAIA eligibility and recruitment to secure elite academic and athletic opportunities for our players.

LEGAL & CONTRACTUAL SECURITY

Ensuring professional stability and peace of mind. We oversee the legal aspects of player agreements and manage administrative logistics, ensuring that the athlete's interests are protected and their focus remains entirely on the pitch.

BRIDGING THE GAP BETWEEN FOOTBALL AND ACADEMICS

At FC Odisea, we believe that an athlete's development is incomplete without a solid academic foundation. We ensure that our players are prepared for the professional game and equipped with the intellectual tools required to succeed in a globalized society. By integrating a rigorous academic schedule with a high-performance sporting workload, we cultivate "thinking players" who can excel both on and off the pitch.

ACADEMIC MONITORING & ENVIRONMENT

Consistency is key to academic success. We provide a structured environment and the necessary oversight to ensure players maintain their studies alongside their sporting commitments.

ACADEMIC SPACE & TOOLS

We provide the dedicated space and essential tools required for academic development. By offering a structured environment within our facilities, we facilitate a setting where student-athletes can focus on their educational progress without compromising their training schedules.

LANGUAGE MASTERY PROGRAMS

Communication is a fundamental professional tool. We offer intensive language courses—focusing on English and Spanish—designed to help players adapt to Spanish culture while preparing them for the communication requirements of

OUR PARTNERS

Colorado State

Southern New
Hampshire University

DEVELOPING THE INDIVIDUAL

Education at FC Odisea extends beyond traditional classrooms to include the development of character and professional awareness.

PROFESSIONAL WORKSHOPS & SEMINARS

Regular sessions covering essential topics that prepare athletes for the realities of a professional career. We provide the knowledge required to navigate the complexities of the sporting world.

LIFE SKILLS & PERSONAL DEVELOPMENT

Our educational framework is designed to foster discipline, time management, and leadership, ensuring that every player is prepared for the transition into adult life.

SECURING THE FUTURE

The Education Department works in synergy with our Pathways (see Section 4) to provide concrete exit strategies for every student-athlete.

UNIVERSITY & VOCATIONAL GUIDANCE

We provide counseling for players transitioning into higher education. Whether the goal is the US Collegiate system (via OSM Scholarships) or European universities, we manage the academic requirements and application processes.

CAREER DIVERSIFICATION

For players seeking paths within the sports industry, we provide guidance toward coaching certifications and sports-related vocational training, ensuring professional viability beyond their playing career.

A SHARP MIND IS THE GREATEST ASSET ON THE PITCH

4

SHOWCASE

PREPARED FOR THE MOMENT

At Odisea Academy, we train all year with one destination in mind: the next level. The Odisea Showcase is the exclusive annual window where our players transition from student-athletes to recruited prospects.

Backed by the expertise of OSM Scholarships, we ensure our Academy players are prepared, vetted, and ready when their hard work meets opportunity. This is where your U.S. journey officially begins.

We bring the United States to Castellón. For one intensive week, head coaches and scouts from NCAA, NAIA, and NJCAA programs fly in with one objective: to find the next generation of talent for their rosters.

LIVE SCOUTING

Coaches observe your performance, character, and tactical intelligence in real-game situations.

ROSTER SPOT OPPORTUNITIES

Direct recruitment for scholarship positions and immediate placement in top-tier programs.

THE SCOUT BOOK

Every Odisea Academy player is featured with full athletic and academic data in the official Scout Book provided to every visiting coach.

BEYOND THE FIELD

Visibility is key to the U.S. recruitment process. We ensure you leave the showcase with the professional tools required to finalize your placement:

HD VIDEO FOOTAGE

All matches are recorded via VEO technology, providing you with elite-level highlights for your personal recruitment portfolio.

FULL SHOWCASE KIT

Exclusive Odisea Showcase branding and equipment to ensure our players look and feel like the collegiate athletes they are becoming.

TECHNICAL EVALUATION

Post-event analysis to help refine your profile for specific U.S. conference requirements and scholarship standards.

4

OSM SCHOLARSHIP

BEYOND THE SCOUTING REPORT

While the Odisea Showcase provides the initial spark, OSM Scholarships is the engine that drives your entire recruitment journey. We don't just find you a school; we manage your complete transition from a local athlete to a global student-athlete. Our 360° model ensures that every aspect of your profile—athletic, academic, and personal—is optimized for the U.S. market.

TRANSLATING TALENT TO THE U.S. SYSTEM

The journey begins with a deep dive into your potential. We analyze where you fit within the competitive landscape of the NCAA, NAIA, and NJCAA.

ATHLETIC PROFILING

We evaluate your technical and tactical abilities to match you with conferences where you can play, excel, and maintain your scholarship.

ACADEMIC ROAD-MAPPING

The U.S. system requires more than just grades. We provide comprehensive guidance on SAT, TOEFL, and Duolingo English Test requirements.

ELIGIBILITY CLEARANCE

We navigate the complexities of the NCAA and NAIA Eligibility Centers, ensuring your transcripts are evaluated correctly and your amateurism status is protected.

YOUR FOUR-YEAR PARTNER

Our commitment does not end when you board the plane. We remain your point of contact throughout your entire collegiate career, assisting with transfer portals, scholarship renewals, and academic transitions.

**WE PAVE THE ROAD.
YOU DRIVE THE DREAM.**

4

OSM SCHOLARSHIP

YOUR GATEWAY TO 2,500+ PROGRAMS

Leveraging a network built over years of successful placements, we put your profile directly on the desks of decision-makers across the United States.

STRATEGIC UNIVERSITY SEARCH

We don't wait for coaches to find you. We actively market your profile to programs that match your academic interests and athletic level.

SCHOLARSHIP NEGOTIATION

Our expertise lies in the "Final Offer." We negotiate with college coaches to maximize your financial aid package, aiming to cover tuition, room, and board.

THE PAPERWORK FORTRESS

We handle the high-stress logistics, including F-1 Student Visa processing, SEVIS fees, health insurance, and university enrollment documentation.

A \$10,000,000+ LEGACY

The cost of a U.S. education is an investment, and our goal is to minimize that burden through your talent.

PROVEN RESULT

We have secured over \$10M in scholarship funding for our athletes to date.

THE 100% PLACEMENT GUARANTEE

We are so confident in our process that we guarantee a U.S. college placement for every Odisea Academy athlete who meets our baseline academic and athletic standards.

PREVIOUSLY PLACED COLLEGES

...

4

TRYOUTS

BEYOND THE ACADEMY

At Odisea Academy, we recognize that some players possess the potential to step directly into the professional world. For these standout individuals, we facilitate exclusive access to professional tryouts and training clinics with top-tier clubs. These opportunities are not a standard service; they are a reward for daily discipline and on-field excellence.

FROM SPAIN TO THE WORLD

Our deep roots in the football landscape allow us to facilitate direct exposure across professional structures worldwide. We maintain active connections with clubs in every professional division in Spain, as well as strategic partnerships across Europe, North America, and Latin America.

NATIONAL REACH

Direct links to professional technical directors across the Spanish league system.

GLOBAL EXPOSURE

Opportunities for high-stakes Pro Clinics in Europe (including Greece) and recruitment windows in the MLS/USL (North America) and Latin American leagues.

STRICT SELECTION CRITERIA

Participation in these exclusive tryouts is strictly based on our internal technical evaluations:

COMPETITIVE PERFORMANCE

Consistent dominance in Academy league matches.

PROFESSIONALISM

Elite discipline, work ethic, and tactical maturity.

TECHNICAL READINESS

Physical and mental preparedness for a pro-team environment.

HOME OF ODISEA

Located on the stunning Costa del Azahar, Castellón de la Plana is more than just a location; it is the ideal ecosystem for a student-athlete. A medium-sized city that offers the perfect balance of modern amenities, historic charm, and a safe, quiet environment—allowing our players to maintain total focus on their development.

CLIMATE & LIFESTYLE

THE ACTIVE COASTLINE

Miles of pristine Mediterranean beaches perfect for physical recovery and weekend relaxation. The outdoor sports culture supports an elite athlete's need for both activity and mental clarity.

300 DAYS OF SUNSHINE

Mediterranean climate with mild winters provide optimal year-round training conditions. Our players are able to train outdoors throughout the whole year to develop further than the competition.

CULINARY EXCELLENCE

Access to high-quality, fresh Mediterranean nutrition. Our players benefit from local markets and world-class ingredients essential for peak athletic performance and recovery.

HOME AWAY FROM HOME

SAFE CHOICE

Recognized as one of the safest and most walkable cities in Spain. It provides a peaceful, student-friendly environment that offers parents total peace of mind while players enjoy their independence.

FOOTBALL HERITAGE

Immerse yourself in a community where football is the primary language. The city's daily life revolves around the professional standards and passion of its local clubs and historic stadiums.

GATEWAY TO VALENCIA

Located just 60 minutes from Valencia, one of Europe's most vibrant cultural and professional football hubs, providing easy access to major scouting networks and international travel.

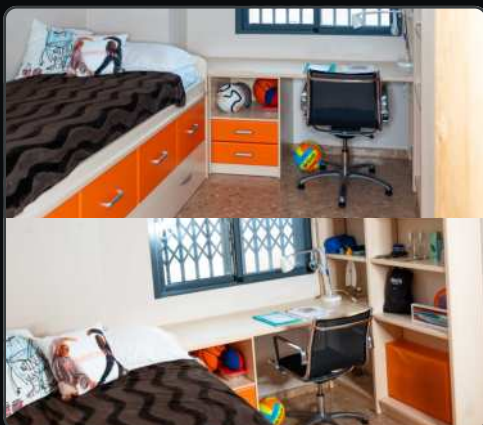

LIVING THE GAME

YOUR HOME IN SPAIN

Our high-performance lifestyle begins at home. Located in the heart of Castellón, our modern player apartments provide a professional, clean, and secure environment designed to support the rigorous demands of an elite athlete's daily schedule.

SHARED LIVING SPACE

A cozy, light-filled space where you can truly unwind after training, enjoy a home-cooked meal with friends, and stay comfortably connected to family.

PERSONAL SANCTUARY

Your personal sanctuary for deep rest and quiet moments, featuring a peaceful atmosphere designed to help you completely disconnect and find your balance.

THE UJI DISTRICT

Nestled in a friendly, sun-drenched neighborhood where you can enjoy local life at a slower pace, just steps away from everything you need.

THE FOUNDATION OF EXCELLENCE

Odisea Academy provides an elite, professional-grade infrastructure designed to catalyze player growth. We offer a dedicated environment where athletes can train, recover, and excel, ensuring every stage of their development is supported by world-class standards.

CIUDAD DEPORTIVA FACSA

Our primary training home is one of the most prestigious sporting complexes in the region. FACSA provides a professional atmosphere where every detail is tailored for elite football development.

THE ENVIRONMENT

A dedicated space where players can push their limits away from the distractions of the city.

THE FIELD

High-quality turf designed for high-intensity training and professional match standards.

THE WELLNESS CENTER

Physical preparation is managed in our state-of-the-art wellness facility. This is where athletes build the strength, speed, and resilience required for the professional and collegiate levels.

RECOVERY ZONE

Dedicated areas for post-training recovery, injury prevention, and physical therapy.

GYM

Fully equipped with professional-grade strength and conditioning machinery.

STUDENT CENTER & PLAYER LOUNGE

Our primary training home is one of the most prestigious sporting complexes in the region. FACSA provides a professional atmosphere where every detail is tailored for elite football development.

MATCH ANALYSIS

High-tech meeting rooms for video analysis and tactical sessions.

ACADEMIC FOCUS

A quiet, professional environment for university studies and personal growth.

PLAYER LOUNGE

A comfortable lounge where players can bond, relax, and build lifelong friendships.

OFFICES & STRATEGY

Our headquarters houses the brains behind the operation. This is where the pathway from Castellón to the world is built.

OPERATIONS OFFICE

Managing the daily logistics, academic tracking, and administrative support for every athlete.

SCOUTING & RECRUITMENT

Our specialized scouting wing, where we analyze performance data to manage player careers and U.S. recruitment strategies.

EL ROBLE: FUELING CHAMPIONS

Nutrition is a pillar of the Odisea philosophy. Our players start and fuel their day at El Roble, a renowned local restaurant that has become an integral part of our Academy family.

BREAKFAST & LUNCH

Balanced, athlete-focused Mediterranean menus designed to provide the energy required for high-performance training.

COMMUNITY DINING

A welcoming atmosphere where players eat together, fostering a team culture and a sense of belonging in the local community.

6

PROGRAMS

CHOOSE YOUR HORIZON

SEPTEMBER - MAY | 10-MONTH SEASON

Whether you are looking for a full academic year of development or a high-intensity mid-season window, FC Odisea Academy offers structured pathways designed to bridge the gap to professional and collegiate football. Each program is a gateway to the elite Spanish environment.

10-MONTH ACADEMY

Designed for dedicated players whose primary focus is reaching the professional level. This track maximizes time on the pitch and in the gym, providing the high-intensity environment required to compete in the world's most demanding leagues.

10-MONTH ACADEMY + COLLEGE

The ultimate path for the modern student-athlete. This program provides elite football training while integrating a structured academic schedule for university studies (UJI) or U.S. college coursework through the OSM Scholarships network. (Page 21)

6-MONTH ACADEMY

Designed for players seeking a significant competitive window in Europe. This half-season program offers a deep dive into the Spanish methodology, perfect for those looking to sharpen their tactical intelligence and gain professional exposure.

3-MONTH ACADEMY

A high-impact, short-term trimester focused on intensive development. Ideal for players looking to experience the professional lifestyle during their off-season or to prepare specifically for an upcoming recruitment window.

6

PROGRAMS

WHAT'S INCLUDED

Our all-inclusive package ensures that players can focus 100% on their development. Aligned with our official service agreements, every seasonal player receives:

ATHLETIC DEVELOPMENT

20 hours coaching time

Daily elite-level technical and tactical training.

Frequent Games Program

Full calendar of competitive fixtures.

Development Tracking

Periodic fitness testing and detailed performance reports.

Elite Matchplay

Fixtures against the teams from professional clubs in La Liga.

Filming & Analysis

All fixtures filmed for professional review and video analysis sessions.

PROFESSIONAL SUPPORT

Exclusive Gym Access

Training in a facility reserved for Academy players.

Recovery & Wellness

Dedicated recovery sessions and access to multi-sport facilities.

Medical Network

Direct access to physiotherapy services and medical performance specialists.

Kit & Gear

Full match, training, and leisurewear package with laundry services included.

LIFESTYLE & ACADEMICS

Accommodation

Modern living in our designated apartment complex.

Full Support

24/7 emergency contact, Student Visa assistance, and access to La Liga tickets.

Logistics

Transport to all training/games and Airport Shuttle Service.

Educational Service

Student tuition for coaching and language courses included.

**ONE TEAM.
ONE DREAM.**
